PROFESSIONAL SUMMARY

IT and cybersecurity professional with hands-on experience in systems administration, security auditing, and vulnerability assessment within a sensitive legal environment handling confidential data. Bachelor's degree in Cybersecurity and Digital Forensics, backed by self-directed home-lab work in Active Directory hardening, Group Policy security, and vulnerability scanning with Nessus and Kali Linux. Skilled in policy development, risk assessment, and compliance-focused IT operations, with a track record of reducing organizational risk through both technical controls and security awareness training. Seeking to bring investigative, analytical, and governance skills to a SOC, GRC, or broader IT/security role.

TECHNICAL SKILLS

Security & GRC: Security Auditing, Vulnerability Assessment (Nessus), Risk Assessment, Policy Development & Compliance, MFA, EDR, Firewalls, Incident Response Fundamentals, Digital Forensics (Magnet AXIOM)

Systems & Infrastructure: Windows Server, Windows 10/11, Ubuntu Linux, Kali Linux, Active Directory, Group Policy

Cloud & Identity: Microsoft 365 Administration, Azure AD / Entra ID, Exchange Online

Networking: VPN, DNS, DHCP, Wireshark / Packet Analysis

Tools & Scripting: PowerShell, System Imaging, Backup & Recovery

WORK EXPERIENCE

IT Manager — American Litigation Law Group, Norman, OK

2024 – Present

- Lead all IT operations, security auditing, and policy implementation across a sensitive legal environment handling confidential client data.
- Develop and enforce IT security policies and conduct recurring vulnerability assessments to reduce risk and strengthen the organization's compliance posture.
- Deploy and manage MFA, EDR, and firewall policies to safeguard client-confidential systems and data.
- Manage IT budgets, vendor relationships, and equipment procurement, reducing costs while optimizing resources.
- Design and deliver security awareness training programs, improving phishing and threat recognition across the organization.

IT Coordinator — American Litigation Law Group, Norman, OK

2024

- Served as sole IT administrator, delivering Tier 1–3 technical support to 25+ users across hardware, software, networking, and Microsoft 365.
- Managed the full user lifecycle — account provisioning, workstation imaging, onboarding, and end-user security training.
- Administered Microsoft 365 (Exchange Online, Entra ID, Security & Compliance) and hardened network file shares with backup solutions.
- Designed a SharePoint-based document archiving system, improving records governance and retrieval across the firm.
- Led cybersecurity awareness initiatives, including simulated phishing campaigns, to reduce organizational risk exposure.

SELECTED PROJECTS

- Digital Forensics – Magnet AXIOM Investigation: Conducted an end-to-end forensic examination of computer and mobile evidence using Magnet AXIOM, extracting browser history, emails, cloud artifacts, and credentials to support investigative findings.
- Vulnerability Assessment Lab (Kali Linux + Nessus): Built an isolated Active Directory domain and used Nessus via Kali Linux to identify and prioritize vulnerabilities across a simulated enterprise network.
- Security Hardening Lab (Group Policy): Designed an OU/GPO structure enforcing least privilege — password policy, Windows Defender, AppLocker, and audit logging across a Windows Server domain.

EDUCATION

Bachelor of Technology – Cybersecurity & Digital Forensics

2025

Oklahoma State University Institute of Technology, Okmulgee, OK | Cum Laude | GPA 3.5/4.0

Associate in Applied Science – Computer Science, Cyber Information Security

2022

Oklahoma City Community College, Oklahoma City, OK

CERTIFICATIONS

- CompTIA Security+ (SY0-701) 2025
- Certificate of Mastery, Cyber Security — Oklahoma City Community College, 2022
- Certificate of Mastery, Network Security (Network & System Administration) — Oklahoma City Community College, 2022
- Certificate of Mastery, Computer Systems Support — Oklahoma City Community College, 2022
