

CASE SCENARIO

This is a homicide investigation. You will be examining the mobile devices. The victim in the case, Christopher Austin, was killed when a drone hovered above his vehicle and detonated a bomb. During the investigation, two suspects were identified: Casey Newton and Ryan Jennings. Newton and Jennings admit to dating, but both deny being involved in the homicide. Moreover, both deny knowing Christopher Austin. After serving multiple search warrants, the following items of digital evidence were seized and submitted for forensic analysis:
